Education

University of Delaware

Bachelor of Science, Computer Science | GPA: 4.0

Newark, Delaware

Expected Graduation: May 2028

Relevant Coursework: Data Structures & Algorithms, Intro Software Engineering, Computer Science Principles (Python), Harvard CS50 Intro Computer Science, CS50's Introduction to Artificial Intelligence with Python, Computer Science A (Java)

Technical Skills

Languages: Python, JavaScript, C++, C, C#, Java, TypeScript, SQL, R, HTML, CSS, Regex, Bash, JSON/YAML, Markdown

Technologies/Frameworks: VS Code, Linux, GitHub, Git, React, Node.js, Express.js, FastAPI, Bootstrap, Pandas, NumPy, PyTest, Selenium, Redis, AWS, Power BI, OpenAPI, n8n, Munis ERP, Microsoft Excel/Office, PyCharm, Agile, DevOps, CRM development, AI chatbots, business automation, local SEO

Projects

HotSpots | React Native, Expo, NativeWind, NestJS, Prisma, Supabase, Google Maps/Places API

- Built a mobile-first social restaurant tracking app with React Native and a NestJS/Prisma/Supabase backend, integrating Google Maps and Places APIs so users can discover, save, and rate restaurants with visit tracking and reviews.

Backyard Estimator | React, TypeScript, Vite, Tailwind CSS, Express, Flux (AI image generation)

- Built a full-stack construction cost estimator that generates itemized material takeoffs for decks, fences, and sheds from live market pricing, and renders an AI-generated photorealistic preview of the design overlaid on the user's yard photo.

Blue Rock Concrete | Cloudflare Workers, Responsive Design, Lead Generation

- Designed and deployed a responsive marketing website on Cloudflare Workers for a concrete contracting client, showcasing services and driving leads through an integrated free-estimate contact form.

Experience

Peak Web Technologies

Founder & Software Developer

Newark, DE

January 2026 – Present

- Founded a web design and custom software agency serving 20+ Delaware small businesses, delivering 50+ projects across custom websites, local SEO, CRM systems, AI chatbots, and business automation while maintaining a 5.0 Google rating.
- Hand-code fast, mobile-responsive websites with SEO built in, and build custom CRMs and AI chatbot workflows that capture, qualify, and route leads for clients such as Blue Rock Tree Care and YachtsDirect.

City of Wilmington

Human Resources Intern

Wilmington, DE

June 2026 – August 2026

- Organized hundreds of personnel and job-listing records into chronological Excel trackers using Munis ERP, improving data integrity while supporting the full hiring cycle through applicant screening, interviews, and employee mediation.

Code Differently

Software Developer Intern

Wilmington, DE

June 2025 – August 2025

- Developed a user-friendly web app that made drone programming accessible through simple Python scripting and taught it to middle-school students coding for the first time; earned IC3 Certification on a collaborative development team.

Buccini Pollin Group

Information Technology Intern

Wilmington, DE

April 2024 – August 2024

- Analyzed and modeled financial data for a commercial real estate property in Excel, building projections and cash-flow reports and presenting findings in cross-functional meetings, including a discussion with former Mayor Mike Purzycki.

Leadership Experience

Wilmington Parks and Recreation

Lead Coordinator

Wilmington, DE

June 2025 – August 2026

- Created the full [roadmap](#) and event layout for the Next Level Youth Summit, planning breakout sessions on leadership and personal growth for 250+ students.
- Designed and built the summit's landing page to promote the event and communicate the schedule to attendees and community partners.

Madrasa, University of Delaware

Content Coordinator

Newark, DE

August 2025 – Present

- Create and coordinate content for the student organization, supporting communications, event planning, and member engagement across campus.
